# BOARD OF DIRECTORS

## LETTER FROM OUR CHAIRMAN

What a difference a year makes! 2018 was truly a transformational year for the Clearwater Free Clinic. Through the generosity of our wonderfully philanthropic community of donors, staff and volunteers, the ambitious dream of a new facility became a reality. THANK YOU hardly seems adequate to express our gratitude for giving us the ability to significantly enhance the healthcare needs of lower income families and individuals living in our communities.

In an effort to increase our mission's scope of services and efficiency, several enhancements to our programs and infrastructure were achieved with the move into our new facility, including the long term goal of implementing Electronic Medical Records (EMR) into our organization. In addition, we have doubled our clinical area and created a Community Room that provides the space to offer a wide range of patient education classes geared towards encouraging lifestyle changes to improve health.

Thanks to you - our volunteers, community partners and donors - the future is bright for the Clearwater Free Clinic and the people we serve. Most recently, an endowment fund was created to ensure the sustainability of our organization. To cap off the successful inaugural year of the Building a Healthy Community Campaign, this prudent decision offers a solid financial foundation no matter what the future may hold.

On behalf of our professional staff and our forward thinking board of trustees, we thank you for helping us achieve our mission that remains steadfast - to provide the very best healthcare to the underserved, hardworking people in our community. During this period of change, your continued support remains vitally important to us.

Warmest regards,

Bruce V. Livingston

# WHO WE HELP

The Clearwater Free Clinic serves low-income, uninsured families with access to the quality medical and mental health care that they need to live productive, healthy lives. Our patients are self-employed, currently unable to work, or their employers do not offer benefits that include health insurance coverage. These are our neighbors that cannot afford private health insurance or the copays and premiums that come along with coverage. All CFC patients live in Pinellas County and earn incomes at or below 200% of the Federal Poverty Level.

## PATIENT INFORMATION:

## COMMUNITY NEED:

## OUR PATIENTS

*"This is such a wonderful place. The staff and doctors are so kind and really helpful. I don't know what I would do without this clinic."*

*"The services provided have been a life saver for me and the people are wonderful."*

*"You saved my life at least twice and I will be eternally grateful for all of your help, time and effort."*

## CHARLES' STORY

### Compassionate Care Makes a Difference

Charles Green has been a hardworking entrepreneur all his life. His thriving business as a painting contractor took him from one big job to another, in cities stretching from Boca Raton, Florida to Richmond, Virginia. Working 70 hours per week made spending time with family and addressing his health care needs difficult. After receiving a call from his young daughter who sang "Daddy come home," he did just that, only to see his North Carolina home and business destroyed by Hurricane Floyd. As a result, he packed his family into his Ford Ranger and drove south for a fresh start.

While working at a telemarketing position, life in Florida did not go as planned. He was driving and nearly passed out due to undiagnosed diabetes. A friend told him

*"I'd probably be dead without the CFC, especially after my lower leg amputation...They not only helped me physically, but also mentally."*

about the Clearwater Free Clinic. "I'd probably be dead without the CFC, especially after my lower leg amputation", says Charles. "They not only helped me physically, but also mentally." Always independent, Charles did not like to ask for help. "The kindness from the staff helped me to accept and understand my condition. Nurse Darlene is absolutely wonderful. Compassionate and patient, she is the one who really helped me get the diabetes under control. I get my medication here, my education here, and my motivation to keep on going here." Soon to turn 65 and Medicare eligible, he is not happy that he will have to leave the Clinic. "I can't rave enough about the Clearwater Free Clinic. Those folks understand me and take care of me. It's like a family here!"

## WILLIAM'S STORY

### Your Neighbors are our Patients

Even successful psychiatric nurses can fall on hard times. William, an American Nursing Credentials Certified Family Nurse Practitioner, would often have to physically wrestle with patients to subdue them to administer needed medication. Over the years, these physically challenging encounters led to neck and back issues that effectively forced him out of the nursing profession and onto disability. Adverse effects of weight-loss surgery also contributed to William's health issues.

Unable to afford private insurance and being ineligible for Medicaid, William began searching the internet for affordable care options. "I thought I was out of luck, but then I found the Clearwater Free Clinic. The CFC is truly a miracle," states William. "To be honest, I was a bit hesitant to go sign

*"The care I have received is top notch for anywhere! (Nurse Practitioner) Corey truly goes above and beyond to make sure I get what I need."*

up. I have worked my entire life, and to find myself without access to healthcare, the field I worked in, made me angry and embarrassed."

Fortunately, the CFC staff and volunteers made William feel like the worthwhile person he is. "The care I have received is top notch for anywhere! (Nurse Practitioner) Corey truly goes above and beyond to make sure I get what I need." William dreams of being able to return to his psychiatric nursing career but until he can, he knows that the dream of having affordable care options has been fulfilled by the Clearwater Free Clinic.

# SERVICES PROVIDED

## MEDICATION PROGRAM:

Our patients may have as many as 5 diagnosed conditions that are often chronic and must be managed with a variety of medications. Through the patient assistance program (PAP), our patients are able to get the medications that they need for little or no cost to them.

## SPECIALTY MEDICAL CARE:

The CFC is proud to offer a variety of specialty services to our patients, from urology to vision care. Referrals are also given for services that are unavailable in-house. Our dedicated and talented team of volunteer doctors are at the heart of these necessary programs.

## HOSPITAL REFERRAL PROGRAM:

After a pilot program with Morton Plant Hospital demonstrated the tremendous savings realized by coordinating services with the CFC, the hospital created a staff position to meet with patients to determine their eligibility. The program exemplifies the value of mutually beneficial partnerships. Countless dollars and lives are saved by ensuring uninterrupted medical care. Of 111 hospital referrals last year, 56 transitioned and were enrolled as patients at the CFC.

## MENTAL HEALTH SERVICES:

Behavioral health issues are often associated with chronic health problems. Typically, these behavioral health visits are supplemental to acute and chronic medical care provided by the Clinic and can dramatically improve the health of our uninsured patients.

## PATIENT EDUCATION:

Patient education has become an integral piece of the comprehensive care that the Clinic provides the uninsured population. The Go Healthy program gives patients the tools and knowledge necessary to manage their chronic health issues. Our expanded community room provides the opportunity to offer more educational programs.

## WAYS TO GIVE

### Make a Donation

Every \$1 donated provides \$6 in medical and mental health care for uninsured families.

### Become a Monthly Donor

Joining the monthly giving program is the easiest way to make the most direct impact in helping our uninsured neighbors gain to access comprehensive health care. You can also make donations to the CFC yearly, quarterly or semi-annually.

### Planned Giving

Planned giving uses tax, financial and estate planning techniques to benefit the donor and the CFC. Charitable gift annuities and bequests in your will are two of the most popular ways of making a planned gift.

# WAYS TO GIVE

### Matching Gifts

Many companies encourage charitable giving through matching programs. Check to see if your employer will multiply your donation to the CFC.

### Give Securities

A gift of securities can provide significant benefits to you and the CFC.

### Sponsor an Event

The CFC's two major fundraisers raise 25% of the Clinic's operating budget. Sponsorships have the greatest impact on the success of these events and help the Clinic better serve our community.

### Memorial or Honorary Gifts

Recognize your loved ones by making a donation of any size to the CFC in their honor.

If you have questions regarding ways to support the work of the CFC, please call Stuart Berger, Director of Development and Marketing at (727) 331-8149 or email at [sberger@clearwaterfreeclinic.org](mailto:sberger@clearwaterfreeclinic.org).

### VOLUNTEERS ARE THE HEARTBEAT OF THE CLINIC

The volunteer team at the CFC is a family. Each volunteer brings something important and worthy to this organization while growing and learning with the ever-changing healthcare environment. We are all working together towards an ultimate goal to help fulfill a vital need in the community, and our volunteers go above and beyond to keep the Clinic's mission alive. We truly rely on the generosity and selflessness of these wonderful people - and they make all the difference in the world!

### WHAT OUR VOLUNTEERS LOVE MOST ABOUT THE CLINIC

# COMMUNITY PARTNERS

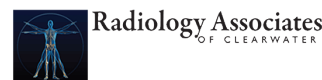

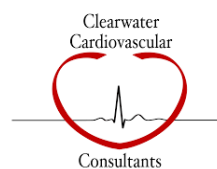

## COMMUNITY PARTNERS HELP US CHANGE LIVES

The Clearwater Free Clinic is able to offer the comprehensive medical services and programs it does because we collaborate with many wonderful Community Partners. These Community Partners are not only hospitals, labs and medical practices, but also businesses, foundations, civic organizations and other non-profits.

Because of these collaborations, a low-income uninsured Clearwater Free Clinic patient has access to numerous medical services both on and off the CFC campus. After being examined by one of our Nurse Practitioners or a volunteer physician, a CFC patient may receive a referral for other donated services. Our hospital community partners provide free lab services, basic and specialized radiology exams along with other hospital based diagnostic procedures including endoscopies and sleep studies. A number of medical practices donate specialized care in such as areas as cardiology, urology, radiology and pathology.

The CFC in turn, has partnered with local hospitals to provide critical follow-up care to discharged uninsured patients to help prevent unnecessary re-admissions, saving millions in health care costs. In addition, the Clinic is committed to developing and maintaining good relationships with other non-profit and civic organizations, working together to help our less fortunate neighbors.

The Clearwater Free Clinic's board of directors understands that we cannot singlehandedly meet the needs of thousands of uninsured patients. We will continue to work with our outstanding Community Partners to help find new ways of building healthier communities.

# CAPITAL CAMPAIGN

## BUILDING A HEALTHY COMMUNITY

We thank the many community members who made a gift to our Building a Healthy Community Campaign. Because of your generosity, we opened our long-awaited new facility in February 2018 debt free! Your investment in the Clearwater Free Clinic helped us achieve our goal to increase delivery of comprehensive care and provide enhanced educational opportunities to positively impact more uninsured Pinellas County residents. This is an ongoing campaign for benefit of the Clinic and hope you will join this growing list of donors.
